

# PROJECT OVERVIEW

Revive I-70 will **improve I-70** in Wayne County.

The project stretches 20+ miles from west of Cambridge City to the IN/OH state line.

It will **reduce congestion, improve traffic flow and improve safety.**

**Added travel lanes, bridge improvements and interchange improvements are expected.**

Improvements are planned for 41 bridges in the project area.

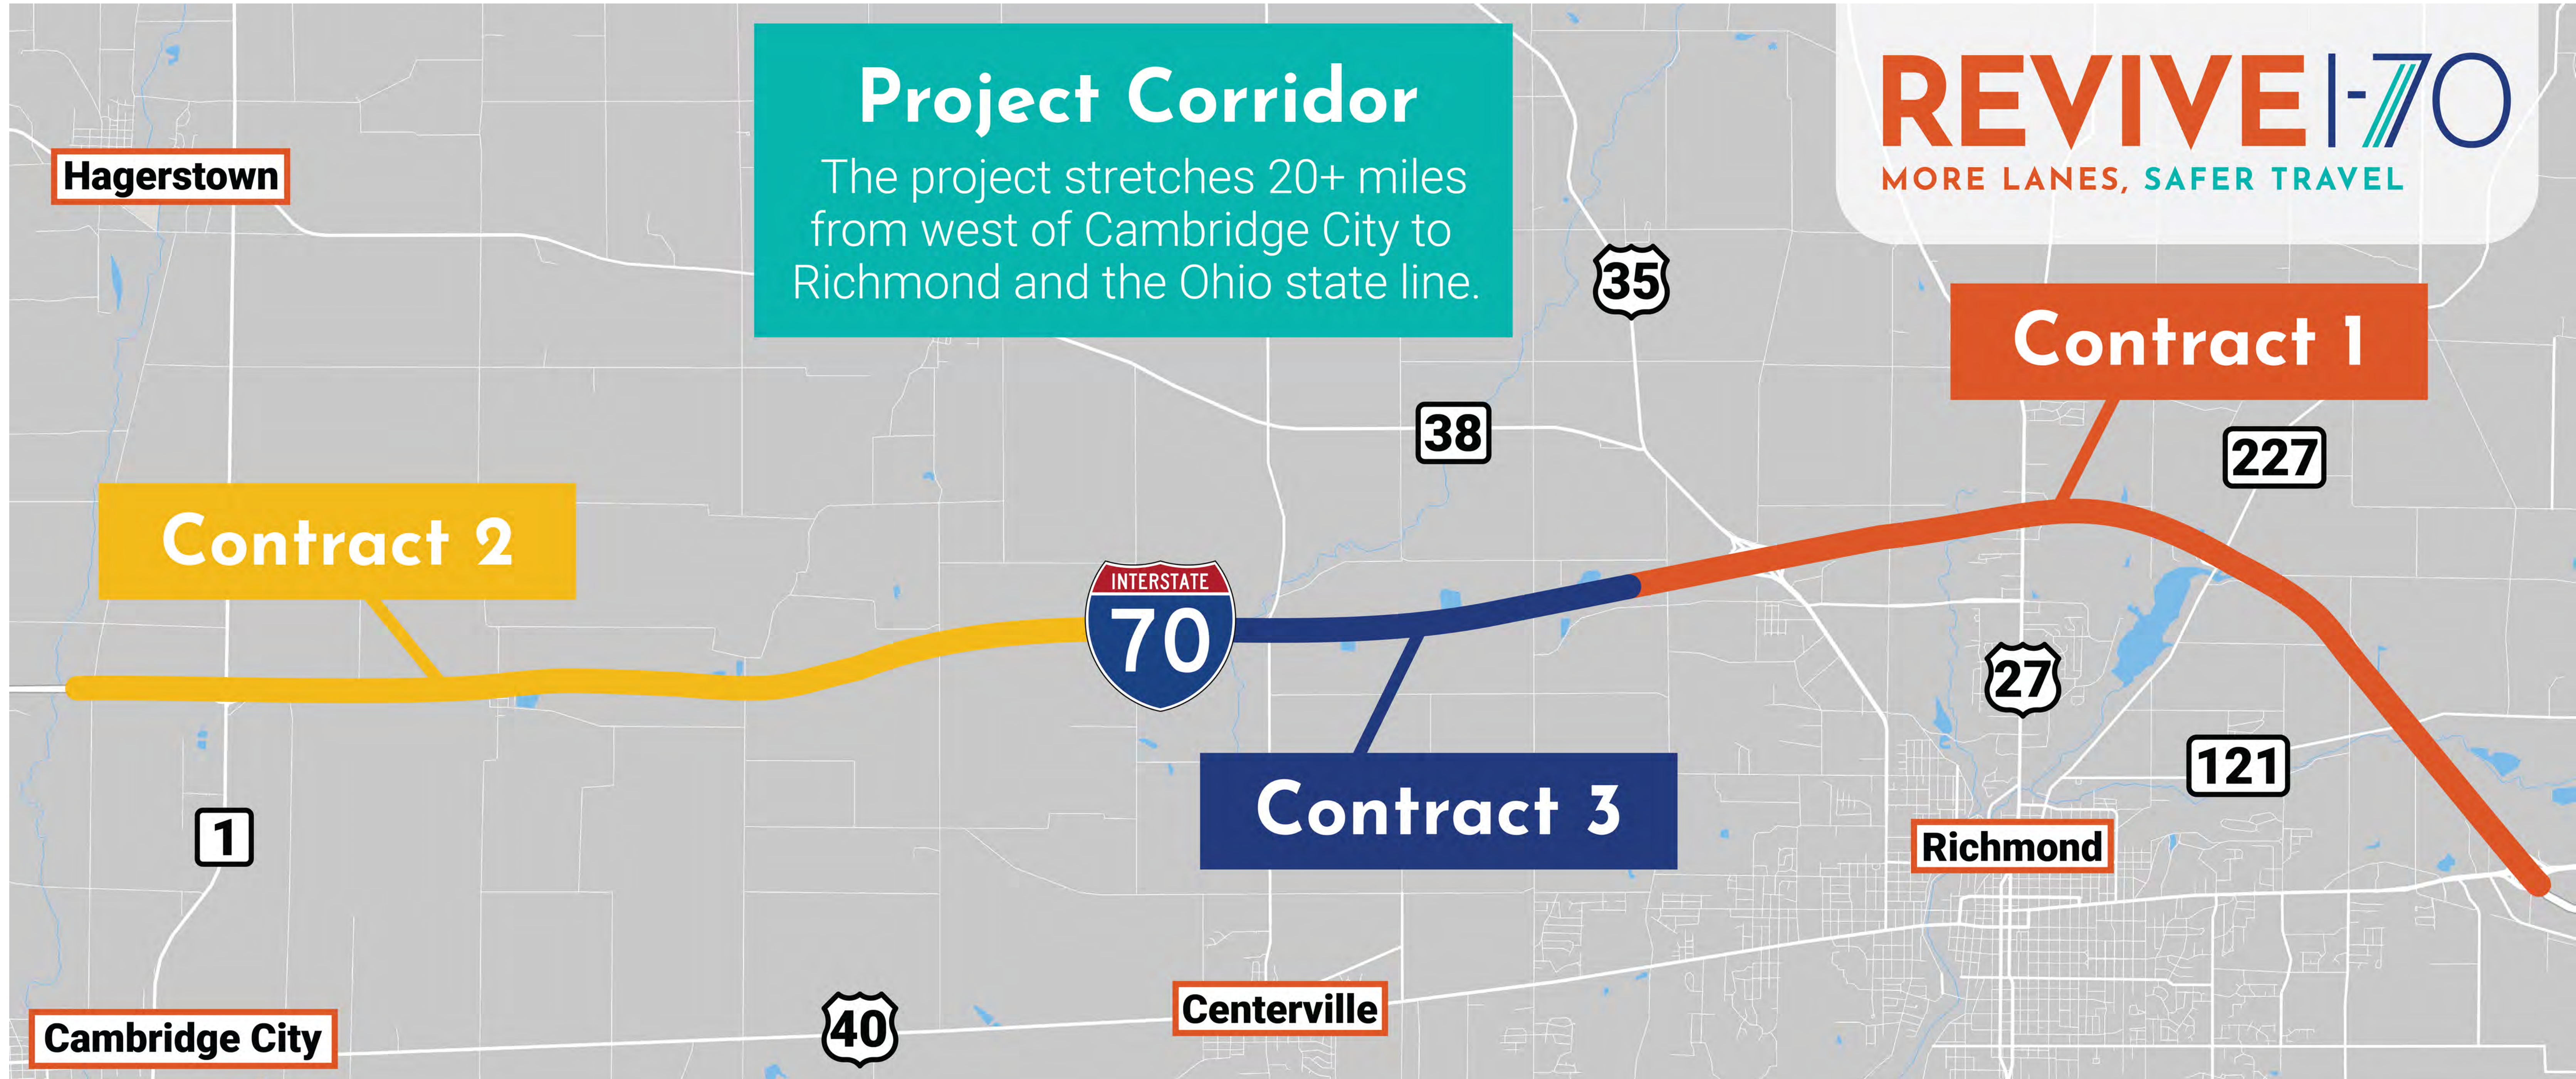

**Pavement replacement and drainage improvements are expected.**

The project will be divided into **three contracts for project delivery.**

# PROJECT DELIVERY

# PROJECT DELIVERY

## Contract 1

- Eastern portion of the project area • Extends from west of US 35 to the Ohio state line • About eight miles long
  - Expected to let in early 2024 • Construction expected to begin by late 2024
  - Added travel lanes, interchange modifications and pavement replacement

## Contract 2

- Western portion of the project area
- Extends from west of SR 1 to west of Centerville
- Nearly nine miles long
- Expected to let in fall 2024

## Contract 3

- Center portion of the project area
- Extends from west of Centerville to US 35
- Nearly four miles long
- Expected to let in 2026 or 2027

# I-70 AND US 35 INTERCHANGE RECOMMENDED ALTERNATIVE

**REVIVE I-70**  
MORE LANES, SAFER TRAVEL

Barrier Separated Ramp with Extended Deceleration Distance

New Retaining Walls

Dual Lane Ramp CD System

Extend Acceleration Distance

- Includes ramp modifications to improve safety
- Adds distance to accelerate and decelerate
- Adds collector-distributor (CD) system (exiting WB I-70 traffic accessing US 35)

**NextLevel**  
ROADS

# I-70 AND US 40 INTERCHANGE RECOMMENDED ALTERNATIVE

**REVIVE I-70**  
MORE LANES, SAFER TRAVEL

2-Thru Lanes for Both Directions

New Retaining Walls

New 5' Sidewalks

New 5' Sidewalks

Replace Existing Bridges

- Diamond interchange with roundabouts
- Interchange reconstructed and loop ramps removed
- Upgraded to meet current INDOT design standards
- Improves traffic flow and safety
- New pedestrian facilities/sidewalks

# BRIDGE IMPROVEMENTS

## EXISTING BRIDGE

## CONTRACT 1 WIDENED BRIDGES

# BRIDGE IMPROVEMENTS

- // Improvements are planned for 41 bridges in the project area.
- // Widening is planned for 36 bridges carrying I-70 traffic.
- // Widening to accommodate three lanes of future traffic.
- // Widening will be to the inside/median side.

## Additional Improvements

- // 8 bridge replacements
- // 15 major rehabilitations
- // 14 deck overlays
- // 4 bridges, preventive maintenance
